7. THE CONDITIONS OF OPERATION

7.1. IF YOU DON'T FOLLOW THESE INSTRUCTIONS, YOU MIGHT BREAK THE DEVICE.

7.2. Cable Insertion and Removal Instructions for Pacific Track PT30 ELD Device. When inserting & removing the cable, please follow these important instructions:

7.3. The 10-pin Molex connector uses a «latch & catch» locking system. The latch is on the cable connector, and the catch is on the device connector. The latch and catch are situated on the bottom of the device, so you need to flip the device upside down to see the latch.

7.4. Make sure to align the pins when you insert the connector carefully.

7.5. When you are inserting and removing the cable, do not rock, bend, or torque the connector in a left/right or up/down direction. Doing so may permanently damage the plastic and/or terminals on the device connector. It is very important that the connector is inserted and removed in a level and straight orientation.
