If you need to send Data to FMCSA directly via email or web or you need to send data to the personal email - you should click the 'Start Inspection' and later 'Transfer Data to Safety Official'.

Please, pay attention that here you will see a list of all the co-drivers operating the same truck during the last 8 days period.

You may select one of the three options for sending: via web services to the FMCSA directly, via email to the FMCSA or any other account. You may also add comment if needed.

If you select Email (Personal), you need to select your country (for America, it is USA). Then you need to enter the recipient's mailbox. Here you have two options to send the logs: choosing "Generate Report for Today" or "Generate Report for the last 8 days".
